Greetings Kind Souls,

The fever of Spring is upon us and mother nature is creating, creating, creating!

A great meditation my friend Benne told me is to see your feet spreading roots deep into the earth and then pulling up all the creating Gaia energy right thru your body, into every pore especially your sexual organs and your sacral chakra, amplifying your aura with creation energy and the intention on what you'd like to manifest. Be clear in setting your energy to your intentions. We all know we can get some universal curve balls when we're not "conscious" of our energy.

Happy Birthday to our lovely Librians out there. Keep spreading the love and beauty!

Enjoy the month!

Love & light

Rachel
